SuperTouch, touch screen consoles

Airtastic currently has four venues in the North and South of Ireland that provide a mix of fun activities including Trampolines, Inflatables, Ninja Zones, Min Golf, Soft-play, Amusements and of course Bowling. Airtastic is a fantastic place for kids and adults to get plenty of exercise before relaxing with food and drinks. The all-new bowling experience boasts 12 EDGE String pinspotters complete with CentrePunch lighting, Harmony ball returns, automatic bumpers for the juniors and newcomers—all played on the most beautiful walnut-coloured lanes for that classy feel. If that was not enough there are the centre has BES X scoring with new SuperTouch touch screen consoles.

## ***Which of the QubicaAMF's products and services have proved the most invaluable to your business since the installation?***

The operating system Conqueror X is the greatest asset as when utilised effectively, it allows us to maximise efficiency and revenue.

## ***How has the reaction been from guests in your venues?***

They love it. The bowling not only looks good but feels good. It is modern, interactive and also engaging due to the personalised graphics with every roll of the ball.

## ***What is it about QubicaAMF services and their equipment that makes you return for more projects?***

Above all it is very reliable. The EDGE String machines are excellent and really simplify the operation and maintenance. The QubicaAMF team from Darren Lewis and John Emmett in Sales to the support team are all extremely professional and easy to deal with.

**Join the EDGE String Revolution!**
